Spark gap ,

Buy it at [Electric Automation Network](#)

Closed, lightning current carrying spark gap for separation of electrically conductive plant components.

- Connection bolts; Ø 10 mm; stainless steel.
- Pulsed current 50 kA (10/350)
- BET

Tested application: Installation of electrical isolations for external lightning protection and earthing systems, and.g. two earthing systems on account of mutual influence or corrosion (corrosion current prevention).
