

TLCS

DOOR SWITCH FOR TLC

Description: Door switch made of PC/ABS for the TLC and TLCL lights. Can be mounted on the inside hole pattern of the enclosure's frame in floor standing enclosures by means of a plug and play principle. A very slim design is guaranteed due to the integrated micro switch. This leaves a maximum aperture space. The switch is supplied with a pre-wired cable. The auto positioning system of the door switch assures that the switch is always in the correct position.

Approvals: CE, EAC.

Pack quantity: 1 piece with mounting accessories.
