

REMOTE OPEATOR R-PKZ2

Powering Business Worldwide™

Part no.

RS-
PKZ2(380-415V50/60HZ)

Article no.

063689

Delivery programme

Product range		Accessories: PKZ2 System - PRODUCT DISCONTINUATION IN 2012
Accessories		Remote operator
Contact sequence		
Circuit diagram for pulsed operation		
OFF equals RESET		
		<p>Power and control sections electrically isolated from one another Control section always 24 V Safe isolation between power and control section is assured</p> <p>Pulsed ($\approx 2 \text{ VA/W}$, 15 ms) and two-wire control activation available The control section can be activated directly from the PLC electronic outputs (24 V DC) Upon activation, the power section is supplied with power directly from the mains (700 VA/W, 30 ms)</p>

Notes

Can be fitted to circuit-breaker and (high-capacity) compact starter. Remote On/Off switching of circuit-breaker and trip reset to OFF.

Remote operator can be switched off locally and the thumb-grip locked using 6 mm padlock.

Suitable for use with AC or DC.

Can be combined with U, U-HI20, UVHI-PKZ2 voltage releases or A-PKZ2.

NHI standard auxiliary contact is always required in addition for combination of circuit-breaker and RE/RS-PKZ2 remote operator.

Cannot be used in conjunction with (R)H-PKZ2 door-coupling handle.

Mounting is possible in On and Off switch positions.

Internal electronic interlocking always makes "Off" a priority.

A green background to the slide indicates the "Hand" position with contacts (33/34) open.

A red background to the slide indicates the "Auto" position with contacts (33/34) closed.

In the "Hand" position, remote switching is not possible.

Notes

Accessories

1 Motor-protective circuit-breaker, circuit-breakers
 3 Standard auxiliary contact
 5 Trip-indicating auxiliary contact
 additional accessories
