## DATASHEET - STN0,2(400/24)

Control transformer, 0.2 kVA, Rated input voltage 400± 5 % V, Rated output voltage 24 V

Part no.

STN0,2(400/24) 204978

| General specifications              |  |
|-------------------------------------|--|
| Product name                        | Eaton Moeller® series STN Control transformer  |
| Part no.                            | STN0,2(400/24)   |
| EAN                                 | 4015082049782  |
| Product Length/Depth                | 83 millimetre  |
| Product height                      | 112 millimetre   |
| Product width                       | 106 millimetre   |
| Product weight                      | 2.996 kilogram   |
| Certifications                      | CE<br>UL 5085-2<br>VDE 0570 Part 2-2<br>UL 506<br>UL File No.: E167225<br>Certified by UL for use in Canada<br>IEC/EN 61558-2-2<br>UL Recognized<br>UL5085-1<br>VDE 0113, VDE 0100 Part 410<br>UL report applies to both US and Canada<br>UL Category Control No.: XPT02, XPT08<br>CSA-C22.2 No. 66.1-06<br>CSA-C22.2 No. 66.2-06<br>IEC/EN 60204-1, ÖVE-EN 13<br>CSA-C22.2 No. 66 |
| Product Tradename                   | STN  |
| Product Type                        | Control transformer  |
| Product Sub Type                    | None   |
| Catalog Notes                       | Electrical characteristics: all details for no-load loss, short-circuit loss (copper losses), short-circuit voltage and efficiency values relate to a temperature of 20 °C   |
| Features & Functions                |  |
| Features                            | Fully Vacuum-impregnated<br>Separate windings  |
| General information                 |  |
| Ambient operating temperature - min | -25 °C   |
| Ambient operating temperature - max | 40 °C  |
| Connection lug                      | Yes for > 115 A  |
| Connection type                     | Terminations, < 115 A  |
| Degree of protection                | IPOO   |
| Duty factor                         | 100 %  |
| Insulation class                    | В  |
| Primary tapping                     | ± 5 %  |
| Product category                    | Single-phase control transformers ST   |
| Suitable for                        | Branch circuits, (UL/CSA)  |
| Туре                                | Single-phase STN control transformers  |
| Electrical rating                   |  |
| Efficiency                          | 88 %   |
| No-load losses                      | 9 W  |
| Rated frequency - min               | 50 Hz  |
| Rated frequency - max               | 60 Hz  |
| Rated power                         | 0.2 V-A  |
| Relative short-circuit voltage      | 6.8 %  |
| Short-circuit losses                | 19 W   |
| Short-time rating                   | 0.38 kV-A  |
| Voltage rating - max                | 600 V  |
| voirage Latilly - Illax             |  |

| Design verification  |  |
|--|--|
| Equipment heat dissipation, current-dependent Pvid                               | 0 W  |
| Heat dissipation capacity Pdiss  | 0 W  |
| Heat dissipation per pole, current-dependent Pvid                                | 0 W  |
| Rated operational current for specified heat dissipation (In)                    | 0 A  |
| Static heat dissipation, non-current-dependent Pvs                               | 28 W   |
| 10.2.2 Corrosion resistance  | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures                         | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat       | Meets the product standard's requirements.   |
| 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation                                 | Meets the product standard's requirements.   |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of assemblies  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components                           | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections                                | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   | Is the panel builder's responsibility.   |
| 10.9.2 Power-frequency electric strength   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material                         | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |
