## **DATASHEET - STI4,0(400/230)**

Control transformer, 4 kVA, Rated input voltage 400± 5 % V, Rated output voltage 230 V

| Part no.                            | STI4,0(400/230)<br>035261 |  |
|-------------------------------------|---------------------------|--|
| General specifications              |                           |  |
| Product name                        |                           | Eaton Moeller® series STI Control transformer  |
| Part no.                            |                           | STI4,0(400/230)  |
| EAN                                 |                           | 4015080352617  |
| Product Length/Depth                |                           | 200 millimetre   |
| Product height                      |                           | 255 millimetre   |
| Product width                       |                           | 230 millimetre   |

| Product Sub Type                    |                           | None   |
| Catalog Notes                       |                           | Electrical characteristics: all details for no-load loss, short-circuit loss (copper losses), short-circuit voltage and efficiency values relate to a temperature of 20 °C   |
| Features & Functions                |                           |  |
| Features                            |                           | Fully Vacuum-impregnated<br>Reinforced insulation<br>Separate windings   |
| General information                 |                           |  |
| Ambient operating temperature - min |                           | -25 °C   |
| Ambient operating temperature - max |                           | 40 °C  |
| Connection lug                      |                           | Yes for > 115 A  |
| Connection type                     |                           | Terminations, < 115 A  |
| Degree of protection                |                           | IP00   |
| Duty factor                         |                           | 100 %  |
| Insulation class                    |                           | В  |
| Primary tapping                     |                           | ± 5 %  |
| Product category                    |                           | Single-phase control transformers ST   |
| Suitable for                        |                           | Branch circuits, (UL/CSA)  |
| Туре                                |                           | Single-phase control, isolating and safety transformer   |
| Electrical rating                   |                           |  |
| Efficiency                          |                           | 97 %   |
| No-load losses                      |                           | 38 W   |
| Rated frequency - min               |                           | 50 Hz  |
| Rated frequency - max               |                           | 60 Hz  |
| Rated power                         |                           | 4 V-A  |
| Relative short-circuit voltage      |                           | 2.2 %  |
| Short-circuit losses                |                           | 88 W   |

| Short-time rating  | 15 kV-A  |
|--|--|
| Voltage rating - max   | 600 V  |
| Design verification  |  |
| Equipment heat dissipation, current-dependent Pvid                               | 0 W  |
| Heat dissipation capacity Pdiss  | 0 W  |
| Heat dissipation per pole, current-dependent Pvid                                | 0 W  |
| Rated operational current for specified heat dissipation (In)                    | 0 A  |
| Static heat dissipation, non-current-dependent Pvs                               | 126 W  |
| 10.2.2 Corrosion resistance  | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures                         | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat       | Meets the product standard's requirements.   |
| 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation                                 | Meets the product standard's requirements.   |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of assemblies  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components                           | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections                                | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   | Is the panel builder's responsibility.   |
| 10.9.2 Power-frequency electric strength   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material                         | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## **Technical data ETIM 9.0**

Low-voltage industrial components (EG000017) / One-phase control transformer (EC002486)

| Electric engineering, automation, process control engineering / Transformer, converter, coil / Control transformer / One-phase control transformer (ecl@ss13-27-03-13-02 [AAB620020]) |   |           |  |  |  |  |
|---|---|-----------|--|--|--|--|
| Built as safety transformer   |   | Yes       |  |  |  |  |
