

LED, W2x4.6d, 18-30VDC, 7-12.5mA, white

**Part no.** LEDWB-W  
**Catalog No.** 208728  
**Alternate Catalog No.** LEDWB-W

**Delivery program**

|   |                 |   |  |
|---|-----------------|---|--|
| Product range                                 |                 |   | Accessories  |
| Basic function accessories                    |                 |   | Single chip LED  |
| Single unit/Complete unit                     |                 |   | Single unit  |
|   |                 |   | Positive pole at X1<br>Integral suppressor circuit up to 1000 V                    |
| Type  |                 |   | 18 - 30 V DC/7 - 12.5 mA   |
| Lifespan to EN 60064 at $t_a = +25\text{ °C}$ | $t_{mean}$ (AC) | h | 100000   |
| <b>Colour</b>                                 |                 |   | white  |
|   |                 |   |  |
| Connection to SmartWire-DT                    |                 |   | no   |

**Design verification as per IEC/EN 61439**

|  |            |    |  |
|--|------------|----|--|
| Technical data for design verification   |            |    |  |
| Rated operational current for specified heat dissipation   | $I_n$      | A  | 0  |
| Heat dissipation per pole, current-dependent   | $P_{vid}$  | W  | 0  |
| Equipment heat dissipation, current-dependent  | $P_{vid}$  | W  | 0  |
| Static heat dissipation, non-current-dependent   | $P_{vs}$   | W  | 0.12   |
| Heat dissipation capacity  | $P_{diss}$ | W  | 0  |
| Operating ambient temperature min.   |            | °C | -25  |
| Operating ambient temperature max.   |            | °C | 60   |
| IEC/EN 61439 design verification   |            |    |  |
| 10.2 Strength of materials and parts   |            |    |  |
| 10.2.2 Corrosion resistance  |            |    | Meets the product standard's requirements.                         |
| 10.2.3.1 Verification of thermal stability of enclosures   |            |    | Meets the product standard's requirements.                         |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |            |    | Meets the product standard's requirements.                         |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |            |    | Meets the product standard's requirements.                         |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |            |    | Meets the product standard's requirements.                         |
| 10.2.5 Lifting   |            |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.6 Mechanical impact   |            |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.7 Inscriptions  |            |    | Meets the product standard's requirements.                         |
| 10.3 Degree of protection of ASSEMBLIES  |            |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.4 Clearances and creepage distances   |            |    | Meets the product standard's requirements.                         |
| 10.5 Protection against electric shock   |            |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.6 Incorporation of switching devices and components   |            |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.7 Internal electrical circuits and connections  |            |    | Is the panel builder's responsibility.                             |
| 10.8 Connections for external conductors   |            |    | Is the panel builder's responsibility.                             |
| 10.9 Insulation properties   |            |    |  |
| 10.9.2 Power-frequency electric strength   |            |    | Is the panel builder's responsibility.                             |
| 10.9.3 Impulse withstand voltage   |            |    | Is the panel builder's responsibility.                             |
| 10.9.4 Testing of enclosures made of insulating material   |            |    | Is the panel builder's responsibility.                             |

|                                     |  |  |  |
|-------------------------------------|--|--|--|
| 10.10 Temperature rise              |  |  | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating          |  |  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility |  |  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function           |  |  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## Technical data ETIM 7.0

|  |  |     |                |
|--|--|-----|----------------|
| Lamps (EG000028) / Single LED (EC001019)   |  |     |                |
| Electric engineering, automation, process control engineering / Lighting installation, device / Light medium / Single LED (ecl@ss10.0.1-27-11-06-36 [AKE247013]) |  |     |                |
| Colour   |  |     | White          |
| Luminous flux  |  | lm  | 0              |
| Nominal voltage  |  | V   | 30             |
| Voltage type   |  |     | DC             |
| Nominal current  |  | mA  | 12.5           |
| Power consumption  |  | W   | 0.2505         |
| Diameter   |  | mm  | 0              |
| Length   |  | mm  | 0              |
| Beam angle   |  | °   | 360            |
| Energy efficiency class  |  |     | Not applicable |
| Weighted energy consumption in 1,000 hours   |  | kWh | 240            |
| Average nominal lifespan   |  | h   | 100000         |
