Solid State Relays 45mm, 3-Phase with Integrated Heatsink Types RGCM2, RGCM3

- 2-pole & 3-pole AC switching solid state contactors
- Product width 45mm
- Rated operational voltage: up to 600VAC
- Rated operational current: up to 20AAC
- Control voltages: 5-32VDC, 20-275VAC (24-190 VDC)
- Up to 1,800A²s for I²t
- Certified motor ratings up to 3HP / 3kW @ 400VAC
- Integrated varistor protection on output
- Enclosed heatsink
- UL, cUL Listing
- DIN or panel mount
- RoHS compliant

Product Description

This product is intended to replace mechanical contactors especially when switching is frequent. The product width is 45mm and the heatsink is enclosed to provide a look alike to its mechanical counterpart. The enclosed heatsink eliminates the need for protective earth connection.

2-pole and 3-pole switching options are available. The

RGCM switches ON when the voltage crosses zero and switches OFF when the current crosses zero. Apart for resistive and slightly inductive loads, the RGCM is certified for motor switching with associated motor ratings.

Varistors are integrated for overvoltage protection. A green LED gives indication of control voltage presence.

Specifications are at a surrounding temperature of 25°C unless otherwise specified.

Radio Interference Voltage Emission (Conducted) 0.15 - 30MHz	EN/IEC 55011 Class A (industrial) with filters - see filter information		

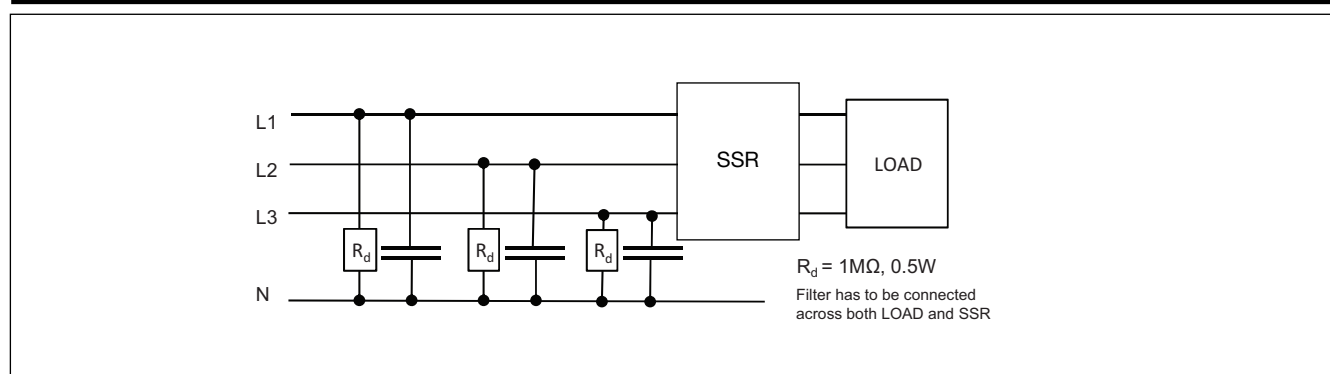

Note:

- Control input lines must be installed together to maintain products' susceptibility to Radio Frequency interference.
- Use of AC solid state relays may, according to the application and the load current, cause conducted radio interferences. Use of main filters may be necessary for cases where the user must meet E.M.C. requirements. The capacitor values given inside the filtering specification tables should be taken only as indications, the filter attenuation will depend on the final application.
- This product has been designed for Class A equipment. Use of this product in domestic environments may cause radio interference, in which case the user may be required to employ additional mitigation methods.
- Performance Criteria 1 (Performance Criteria A): No degradation of performance or loss of function is allowed when the product is operated as intended.
- Performance Criteria 2 (Performance Criteria B): During the test, degradation of performance or partial loss of function is allowed. However, when the test is complete the product should return operating as intended by itself.
- Performance Criteria 3 (Performance Criteria C): Temporary loss of function is allowed, provided the function can be restored by manual operation of the control.

Environmental Specifications

Operating Temperature	-40°C to 70°C (-40°F to +158°F)	Relative humidity	95% non-condensing @ 40°C
Storage Temperature	-40°C to 100°C (-40°F to +212°F)	UL flammability rating (housing)	UL 94 V0
RoHS (2002/95/EC)	Compliant	Installation Altitude	0 - 1000m. Above 1000m derate linearly by 1% of FLC per 100m up to a maximum of 2000m
Impact resistance (EN50155, EN61373)	15/11 g/ms	Weight	400g
Vibration resistance (2-100Hz, IEC60068-2-26, EN50155, EN61373)	2g per axis		

Installation Instructions

1. Push spring upwards against DIN rail. When spring is under pressure, clip device on to the DIN rail
2. Push spring upwards against DIN rail. When spring is under pressure, remove device from DIN rail
3. Mount the cooling fins vertically

Short Circuit Protection

Protection Co-ordination, Type 1 vs Type 2:

Type 1 protection implies that after a short circuit, the device under test will no longer be in a functioning state. In type 2 co-ordination the device under test will still be functional after the short circuit. In both cases, however the short circuit has to be interrupted. The fuse between enclosure and supply shall not open. The door or cover of the enclosure shall not be blown open. There shall be no damage to conductors or terminals and the conductors shall not separate from terminals. There shall be no breakage or cracking of insulating bases to the extent that the integrity of the mounting of live parts is impaired. Discharge of parts or any risk of fire shall not occur.

The product variants listed in the table hereunder are suitable for use on a circuit capable of delivering not more than 5,000A rms Symmetrical Amperes, 600 Volts maximum when protected by fuses. Tests at 5,000A were performed with Class RK5 fuses; please refer to table below for maximum allowed ampere rating of the fuse. Use fuses only.

Tests with class RK5 fuses represent class CC fuses.

Co-ordination type 1 (UL508)

Part No.	Max. fuse size [A]	Class	Short circuit current [kArms]	Voltage [VAC]
RGCM2..20	25 25	RK5 CC	5	Max. 600
RGCM3..15	25 25	RK5 CC	5	Max. 600

Co-ordination type 2 (EN/IEC 60947-4-2/ -4-3)

Part No.	Ferraz Shawmut		Short circuit current [kArms]	Voltage [VAC]
	Fuse size [A]	Part Number		
RGCM2..20	32	6.9xx CP gRC 14x51/32	5	Max. 600
RGCM3..15	25	6.9xx CP gRC 14x51/25	5	Max. 600

Type 2 Protection with Miniature Circuit Breakers

Solid State Relay type	ABB Model no. for Z - type M. C. B. (rated current)	ABB Model no. for B - type M. C. B. (rated current)	Wire cross sectional area [mm ²]	Minimum length of Cu wire conductor [m] ⁵
RGM2..20 RGM3..15	S201 - Z10 (10A)	S201-B4 (4A)	1.0	7.6
			1.5	11.4
			2.5	19.0
	S201 - Z16 (16A)	S201-B6 (6A)	1.0	5.2
			1.5	7.8
			2.5	13.0
			4.0	20.8
	S201 - Z20 (20A)	S201-B10 (10A)	1.5	12.6
			2.5	21.0
	S201 - Z25 (25A)	S201-B13 (13A)	2.5	25.0
			4.0	40.0

5: Between MCB and Load (including return path which goes back to the mains if applicable).

Note: A prospective current of 6kA and a 230/400V power supply system is assumed for the above suggested specifications. For cables with different cross section than those mentioned above please consult Carlo Gavazzi's Technical Support Group.

Accessories

Motor Overload Relay Adaptor

Ordering Key

Overload relay adaptor

REC3ADAPTOR

This plastic adaptor can be fitted to the RGCM housing cover to facilitate mounting of overload protection relays. This adaptor is compatible with:

Manufacturer	Series	Example
ABB	TA	TA25DU-8.5
Siemens	3RU11	3RU1126-1FB0

REC3ADAPTOR packing quantity is 5 pcs.

Control Plugs

Ordering Key

Pack of 10 box clamp control plugs
