Reference: 037N0055

Type Code MCI 15 DOL , Weight 0.743 Kg , Approval CE, EAC ,
Control volt. DC 24 - 60 V

Buy it at Electric Automation Network

MCI-DOL electronic motor contactors are designed for fast and demanding switching of 3-phase AC motors. The contactors are burst fired for reduced EMC emission, have LED status indicators and accept universal control voltages. Long life Universal control voltage LED status indicator Built-in varistor protection Unlimited start/stop operations per hour Compact DIN-rail mountable design

Type Code	MCI 15 DOL
Weight	0.743 Kg
Approval	CE, EAC
Control volt. DC	24 - 60 V
Control volt., 50/60 Hz	24 - 480 V
Controlled phases	2
EAN no.	5702423108855

Max. load [A]	15 A
Descript.	SOFT START MOTOR CONTACTOR
Prod. Group	Contactors and motor starters
Prod. name	Electronic motor contactor
Supply volt. AC	400 V
