Device installation trunking
asymmetrical, 133x110x2000, Pure
white, 9010, Steel, St

Buy it at [Electric Automation Network](#)

GEK-S device installation trunking with base perforation suitable for installation on desks, etc. The visible surfaces of the painted GEK-S device installation trunking are laminated. The trunking system possesses self-contacting locking straps to accept a sheet steel partition. The equipotential bonding between the trunking bases takes place using the trunking coupling. The protective measure and the equipotential bonding is guaranteed between the cover and the base by the self-contacting trunking cover. The real system opening is 76.5 mm. The cover must be ordered separately.
