Contact removal tool, for rotated CK-4,0-... contacts

Key Commercial Data

Packing unit	1 STK
GTIN	 4 017918 128883

Technical data

General

Connection	The CK4,0-EWZ tool (order no. 1662735) is required for removing the crimp contacts. At every "C" contact chamber, the position of the contact retaining springs is marked with two black markings on the connection side. From the connection side, the tool is pushed over the contact in a position-oriented manner, so that it touches both the retaining springs. Then insert it up to the limit stop. Do not turn the inserted tool. Push the conductor out of the insulating body along with the tool from the connection side.
