

Data Sheet

Strainers Type **FA**

Strainer type FA with interchangeable filter insert

Strainer type FA with interchangeable filter insert is used in lines carrying fluorinated refrigerants, ammonia, water, brine, oil, and gas.

Features:

- Retains contaminants, e.g. slag, and weld beads and swarf
- Pressure drop insignificant
- Classification: DNV, CRN, BV, EAC etc. To get an updated list of certification on the products please contact your local Danfoss Sales Company.

Media

New refrigerants

Danfoss products are continually evaluated for use with new refrigerants depending on market requirements.

When a refrigerant is approved for use by Danfoss, it is added to the relevant portfolio, and the R number of the refrigerant (e.g. R513A) will be added to the technical data of the code number. Therefore, products for specific refrigerants are best checked at store.danfoss.com/en/, or by contacting your local Danfoss representative.

Pressure and temperature data

Table 1: Pressure and temperature data

Description	Values
Temperature of media	-50 °C – 140 °C
Max. working pressure	PS = 28 bar
Max. test pressure	p' = 42 bar
Filter insert	Stainless steel weave, mesh size 150µ (100 mesh)

Design

Materials

- Gaskets are non asbestos
- Valve housing made of GGG - 40.3
