

## Interrupteur crépusculaire

Référence

DS-TD/1W

Code

111453

Powering Business Worldwide™

### Caractéristiques techniques ETIM 4.0

Rated operating voltage		V	230
Mounting depth		mm	69.5
Mounting type			DIN-rail
Max. fluorescent lamp load (parallel-compensated)		V·A	400
Max. fluorescent lamp load (duo circuit)		V·A	2300
Max. fluorescent lamp load		V·A	2300
Max. conductor length light sensor		m	100
Max. filament bulb load		W	2300
Max. switching current (p.f. = 0.6)		A	6
Rated operating voltage light sensor		V	230
Width in space units			4
Rated frequency		Hz	60
Mounting method light sensor			Flush mounting
Protection class light sensor			III
Setting range brightness value		lx	2000
Rated switch current		A	10
Protection type (IP)			IP20
Push button input			No
Degree of protection (IP) light sensor			IP65
With programmable overnight shutoff			No
