## DATASHEET - MSC-D-10-M9(230V50HZ)/BBA

DOL starter, 380 V 400 V 415 V: 4 kW, Ir= 6.3 - 10 A, 230 V 50 Hz, 240 V 60 Hz, **AC** voltage

Part no. MSC-D-10-M9(230V50HZ)/BBA

102956

**EL Number** (Norway)

4315417

| (Norway)  |  |

|   |  |
| Product name  | Eaton Moeller® series MSC-D DOL starter  |
| Part no.  | MSC-D-10-M9(230V50HZ)/BBA  |
| EAN   | 4015081027958  |
| Product Length/Depth                                    | 154 millimetre   |
| Product height  | 200 millimetre   |
| Product width   | 45 millimetre  |
| Product weight  | 0.875 kilogram   |
| Certifications  | UL UL Category Control No.: NKJH UL60947-4-1A CSA-C22.2 No. 14-10 CE UL File No.: E123500 CSA Class No.: 3211-04 CSA-C22.2 No. 14 (on request) CSA UL 508 (on request) CSA UL 508 (on request) CSA File No.: 012528 IEC/EN 60947-4-1 |
| Product Tradename                                       | MSC-D  |
| Product Type  | DOL starter  |
| Product Sub Type  | None   |
| Catalog Notes   | IE3-ready devices are identified by the logo on their packaging.   |
|   |  |
| Fitted with:  | Short-circuit release  |
| Functions   | Temperature compensated overload protection  |
| Class   | CLASS 10 A   |
| Connection  | Screw terminals  |
| Connection to SmartWire-DT                              | No   |
| Coordination type                                       | 1  |
| Degree of protection                                    | IP20   |
|   | NEMA Other   |
| Model   | Direct starter   |
| Mounting method   | Rail mounting possible   |
| Number of auxiliary contacts (normally closed contacts) | 0  |
| Number of auxiliary contacts (normally open contacts)   | 1  |
| Overload release current setting - min                  | 6.3 A  |
| Overload release current setting - max                  | 10 A   |
| Overvoltage category                                    | -  |
| Pollution degree  | 3  |
| Rated impulse withstand voltage (Uimp)                  | 6000 V AC  |
| Suitable for  | Also motors with efficiency class IE3  |
| Туре  | DOL starter (complete device)  |
| Voltage type  | AC   |
| Altitude  | Max. 2000 m  |
| Ambient operating temperature - min                     | -25 °C   |
| Ambient operating temperature - max                     | -20 C<br>55 °C   |
| Composit oberating remberating - max                    | 33 0   |
| Rated operational current (le)                          | 8.5 A  |
| p   |  |

| Rated operational current (le) at AC-3, 380 V, 400 V, 415 V                      | 9 A  |
|--|--|
| Rated operational power at AC-3, 220/230 V, 50 Hz                                | 2.2 kW   |
| Rated operational power at AC-3, 380/400 V, 50 Hz                                | 4 kW   |
| Rated operational voltage  | 230 - 415 V AC   |
| Switching capacity (auxiliary contacts, general use)                             | 15 A, 600 V AC, (UL/CSA)<br>1 A, 250 V DC, (UL/CSA)  |
| Switching capacity (auxiliary contacts, pilot duty)                              | A600, AC operated (UL/CSA)<br>P300, DC operated (UL/CSA)   |
| Rated conditional short-circuit current (Iq), type 2, 380 V, 400 V, 415 V        | 100 A  |
| Short-circuit release (Irm) - max  | 155 A  |
| Power consumption, sealing, 50 Hz  | 1.2 W, Dual-frequency coil in a cold state and 1.0 x Us, at 50 Hz  |
| Rated control supply voltage (Us) at AC, 50 Hz - min                             | 230 V  |
| Rated control supply voltage (Us) at AC, 50 Hz - max                             | 230 V  |
| Rated control supply voltage (Us) at AC, 60 Hz - min                             | 0 V  |
| Rated control supply voltage (Us) at AC, 60 Hz - max                             | 0 V  |
| Rated control supply voltage (Us) at DC - min                                    | 0 V  |
| Rated control supply voltage (Us) at DC - max                                    | 0 V  |
| Equipment heat dissipation, current-dependent Pvid                               | 8.4 W  |
| Heat dissipation capacity Pdiss  | 0 W  |
| Heat dissipation per pole, current-dependent Pvid                                | 2.8 W  |
| Rated operational current for specified heat dissipation (In)                    | 9 A  |
| Static heat dissipation, non-current-dependent Pvs                               | 1.4 W  |
| 10.2.2 Corrosion resistance  | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures                         | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat       | Meets the product standard's requirements.   |
| 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation                                 | Meets the product standard's requirements.   |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of assemblies  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components                           | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections                                | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   | Is the panel builder's responsibility.   |
| 10.9.2 Power-frequency electric strength   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material                         | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   | Is the panel builder's responsibility. The specifications for the switchgear must observed.                                      |
| 10.12 Electromagnetic compatibility  | Is the panel builder's responsibility. The specifications for the switchgear must observed.                                      |
| 10.13 Mechanical function  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## **Technical data ETIM 8.0**

Low-voltage industrial components (EG000017) / Motor starter/Motor starter combination (EC001037)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Load breakout, motor breakout / Motor starter combination (ecl@ss10.0.1-27-37-09-05 [AJZ718013])

| [A32/100/3])                               |   |                             |  |  |
|--|---|-----------------------------|--|--|
| Type of motor starter                      |   | Direct online starter (DOL) |  |  |
| With short-circuit release                 |   | Yes                         |  |  |
| Rated control supply voltage Us at AC 50HZ | V | 230 - 230                   |  |  |

| Rated control supply voltage Us at AC 60HZ                               | V        | 0 - 0            |
|--|----------|------------------|

| Voltage type for actuating   |          | AC               |
| Rated operation power at AC-3, 230 V, 3-phase                            | kW       | 2.2              |
| Rated operation power at AC-3, 400 V                                     | kW       | 4                |
| Rated power, 460 V, 60 Hz, 3-phase                                       | kW       | 0                |
| Rated power, 575 V, 60 Hz, 3-phase                                       | kW       | 0                |
| Rated operation current le   | Α        | 8.5              |
| Rated operation current at AC-3, 400 V                                   | Α        | 9                |
| Overload release current setting   | Α        | 6.3 - 10         |
| Rated conditional short-circuit current, type 1, 480 Y/277 V             | Α        | 0                |
| Rated conditional short-circuit current, type 1, 600 Y/347 V             | Α        | 0                |
| Rated conditional short-circuit current, type 2, 230 V                   | Α        | 0                |
| Rated conditional short-circuit current, type 2, 400 V                   | Α        | 100              |
| Number of auxiliary contacts as normally open contact                    |          | 1                |
| Number of auxiliary contacts as normally closed contact                  |          | 0                |
| Ambient temperature, upper operating limit                               | °C       | 55               |
| Temperature compensated overload protection                              |          | Yes              |
| Release class  |          | CLASS 10 A       |
| Type of electrical connection of main circuit                            |          | Screw connection |
| Type of electrical connection for auxiliary- and control current circuit |          | Screw connection |
| Rail mounting possible   |          | Yes              |
| With transformer   |          | No               |
| Number of command positions  |          | 0                |
| Suitable for emergency stop  |          | No               |
| Coordination class according to IEC 60947-4-3                            |          | Class 1          |
| Number of indicator lights   |          | 0                |
| External reset possible  |          | No               |
| With fuse  |          | No               |
| Degree of protection (IP)  |          | IP20             |
| Degree of protection (NEMA)  |          | Other            |
| Supporting protocol for TCP/IP   |          | No               |
| Supporting protocol for PROFIBUS   |          | No               |
| Supporting protocol for CAN  |          | No               |
| Supporting protocol for INTERBUS   |          | No               |
| Supporting protocol for ASI  |          | No               |
| Supporting protocol for Modbus   |          | No               |
| Supporting protocol for Data-Highway                                     |          | No               |
| Supporting protocol for DeviceNet  |          | No               |
| Supporting protocol for SUCONET  |          | No               |
| Supporting protocol for LON  |          | No               |
| Supporting protocol for PROFINET IO                                      |          | No               |
| Supporting protocol for PROFINET CBA                                     |          | No               |
| Supporting protocol for SERCOS   |          | No               |
| Supporting protocol for Foundation Fieldbus                              |          | No               |
| Supporting protocol for EtherNet/IP                                      |          | No               |
| Supporting protocol for AS-Interface Safety at Work                      |          | No               |
| Supporting protocol for DeviceNet Safety                                 |          | No               |
| Supporting protocol for INTERBUS-Safety                                  |          | No               |
| Supporting protocol for PROFIsafe  |          | No               |
| Supporting protocol for SafetyBUS p                                      |          | No               |
| Supporting protocol for other bus systems                                |          | No               |
|  |          |                  |
