Illuminated selector switch actuator, RMQ-Titan, With thumb-grip, maintained, 3 positions, red, Bezel: titanium

Part no. M22-WRLK3-R

216845

EL Number

4355759

Product rame	(Norway)

Features & Functions Bezel color Bezel material Color Design Fitted with: Functions Ceneral information Accessories Degree of protection (front side) Lifespan, mechanical Operating frequency Operating frequency Operating torque Product category Size Suitable for Suitable for Switching angle Type Ambient conditions, mechanical Mounting position Mithal As required As required Mounting position Titanium Thumb-grip Front diameter 22.5 mm Operations Illumination Switching angle Type Ambient conditions, mechanical Mounting position As required As required So Mechanical, According to IEC/EN 60068-2-27, Sinusoidel shock 11 ms	Product Type	Illuminated selector switch actuator
Bezel tures & Functions Bezel material Bezel material Color Bezel material Color Design With thumb-grip Fitted with: Functions Steneral information Accessories Degree of protection Degree of protection (front side) Lifespan, mechanical Opening diameter Operating frequency Operating torque Operating torque Product category Size Suitable for Switching angle Type Ambient conditions, mechanical Mounting position As required Mounting position As required Mounting position As required As required Mounting position As required Mounting position Sing Mechanical, According to IEC/EN 60068-2-27, Sinusoidel shock 11 ms	Product Sub Type	None
Bezel material Color Color Red With thumb-grip Fitted with: Front ring Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Seneral information Accessories Thumb grip Degree of protection NEMA 4X, 13 Degree of protection (front side) Lifespan, mechanical Openating diameter Operating frequency Operating frequency Operating torque Product category Size Front diamater: 29.7 mm Suitable for Suitable for Suitable for Suitable for Mounting position Mounting position Mounting position Shock resistance Plastic With thumb-grip Pront diamater Stay-put/spring-return function, can be changed with coding parts M22-XC-Y With thumb-grip Front ring NEMA 4X, 13 100,000 Operations 100,000 Operations 22.5 mm 2000 Operations/h 0.3 N-m RMQ-Titan Size Front diamater: 29.7 mm Illumination Switching angle For or Switching angle For or Switch actuator Another conditions, mechanical Mounting position So g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Color Design With thumb-grip Fitted with: Frunctions Functions Stay-put/spring-return function, can be changed with coding parts M22-XC-Y General information Accessories Degree of protection Degree of protection (front side) Lifespan, mechanical Opening diameter Operating frequency Operating frequency Operating frequency Operating torque Product category RMQ-Titan Size Front diameter: 29.7 mm Illumination Switching angle Type Illuminated selector switch actuator Ambient conditions, mechanical Mounting position Shock resistance Med With thumb-grip With thumb-grip Front ring Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-	Bezel color	Titanium
Design Fitted with: Functions Fonct ring Stay-put/spring-return function, can be changed with coding parts M22-XC-Y General information Accessories Degree of protection Degree of protection (front side) Lifespan, mechanical Opening diameter Operating frequency Operating frequency Operating torque Product category RMC-Titan Size Front diameter: 29.7 mm Suitable for Illumination Switching angle Type Mounting position Sylve (Michanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms	Bezel material	Plastic
Fitted with: Functions Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Seneral information Accessories Thumb grip Degree of protection Degree of protection (front side) Lifespan, mechanical Ungening diameter Opening diameter Operating frequency Operating frequency Operating frequency Operating torque Operating torque Osa N-m Product category RMQ-Titan Size Front diameter: 29.7 mm Illumination Switching angle Type Illuminated selector switch actuator Mounting position As required Stock resistance As required Stock resistance Front ring Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Stay-put/spring-return function, can be changed with coding parts M2-XC-Y Stay-put/spring-return function Stay-put/spring-return function Stay-put/spring-return function Stay-put/spring-return func	Color	Red
Functions Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Seneral information Accessories Thumb grip Degree of protection NEMA 4X, 13 Degree of protection (front side) Lifespan, mechanical Opening diameter Operating frequency Operating frequency Operating torque Operating torque Operating torque Osa N-m Product category RMQ-Titan Size Front diameter: 29.7 mm Suitable for Illumination Switching angle Type Illuminated selector switch actuator Mounting position As required Shock resistance Stay-put/spring-return function, can be changed with coding parts M22-XC-Y Thumb grip NEMA 4X, 13 100,000 Operations 22.5 mm 20.00 Operations 100,000 Operations 100,000 Operations 20.3 N-m RMQ-Titan Size Front diameter: 29.7 mm Illumination Switching angle As required As required Shock resistance	Design	With thumb-grip
Accessories Thumb grip Degree of protection Degree of protection (front side) Lifespan, mechanical Depender of protection (front side) Lifespan, mechanical Opening diameter Operating frequency Operating frequency Operating torque Operating torque Product category Size Front diameter: 29.7 mm Suitable for Illumination Switching angle Type Illuminated selector switch actuator Mounting position As required Shock resistance Thumb grip Thumb grip NEMA 4X, 13 100,000 Operations 100,000 Operations 22.5 mm 22.5 mm 2000 Operations/h 100,000 Operations 22.5 mm 22.5 mm 101,000 Operations 101,000 Op	Fitted with:	Front ring
Accessories Degree of protection Degree of protection (front side) Lifespan, mechanical Dening diameter Operating frequency Operating torque Product category Suitable for Suitable for Suitable for Type Ambient conditions, mechanical Mounting position Thumb grip NEMA 4X, 13 P66 100,000 Operations 100,000 Operations 22.5 mm 2000 Operations/h 2000 Opera	Functions	Stay-put/spring-return function, can be changed with coding parts M22-XC-Y
Accessories Degree of protection Degree of protection (front side) Lifespan, mechanical Dening diameter Operating frequency Operating torque Product category Suitable for Suitable for Suitable for Type Ambient conditions, mechanical Mounting position Accessories Thumb grip NEMA 4X, 13 P66 100,000 Operations 100,000 Operations 22.5 mm 2000 Operations/h 2000 Operations/h 2000 Operations/h 2000 Operations/h 2000 Operations/h 2000 Operations/h 2010 Operations/	General information	
Degree of protection Degree of protection (front side) Lifespan, mechanical Opening diameter Operating frequency Operating torque Product category RMQ-Titan Size Suitable for Suitable for Switching angle Type Mounting position Mounting position Shock resistance NEMA 4X, 13 IP66 100,000 Operations 100,000 Operations 22.5 mm 2000 Operations/h 2000 Operations/h 2000 Operations/h 100,000 Operations 2000 Operations 2000 Operations/h 2000 Operations 2000 Operations/h 2000 Op	Accessories	Thumb grip
Degree of protection (front side) Lifespan, mechanical Opening diameter Operating frequency Operating torque Product category RMQ-Titan Size Front diameter: 29.7 mm Suitable for Switching angle Type Munting position Mounting position Shock resistance Illeminated, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Lifespan, mechanical Opening diameter Operating frequency Operating torque Operating torque Product category Size Front diameter: 29.7 mm Suitable for Switching angle Type Mounting position Mounting position Shock resistance 100,000 Operations 22.5 mm 2000 Operations/h 0.3 N·m RMQ-Titan Front diameter: 29.7 mm Illumination 60 ° Illumination As required As required Shock resistance 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Operating frequency Operating frequency Operating torque One and the selector switch actuator Ambient conditions, mechanical Mounting position Shock resistance 22.5 mm 2000 Operations/h O.3 N·m RMQ-Titan RMQ-Titan Front diameter: 29.7 mm Illumination 60 ° Illumination Front diameter: 29.7 mm Illumination As required As required Shock resistance 22.5 mm 2000 Operations/h One And And And And And And And According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Operating frequency Operating torque Operating torque Os N-m RMQ-Titan Rize Front diameter: 29.7 mm Suitable for Illumination Switching angle Type Illuminated selector switch actuator Mounting position As required Shock resistance Some Applications, Mechanical Shock resistance Some Applications and Some Ap		
Operating torque Ogerating to		
Product category Size Front diameter: 29.7 mm Illumination Switching angle Type Ambient conditions, mechanical Mounting position Shock resistance RMQ-Titan Front diameter: 29.7 mm Illumination 60 ° Illuminated selector switch actuator As required 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Size Front diameter: 29.7 mm Suitable for Illumination Switching angle 60 ° Type Illuminated selector switch actuator Ambient conditions, mechanical Mounting position As required Shock resistance 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Suitable for Illumination Switching angle 60 ° Type Illuminated selector switch actuator Ambient conditions, mechanical Mounting position As required Shock resistance 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Switching angle Type Illuminated selector switch actuator Important conditions, mechanical Mounting position As required Shock resistance 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Type Illuminated selector switch actuator Ambient conditions, mechanical Mounting position As required Shock resistance 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Ambient conditions, mechanical Mounting position As required Shock resistance 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		
Mounting position As required Shock resistance 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		munimated selector switch actuator
Shock resistance 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms		A. saraifard

Technical data ETIM 9.0

Low-voltage industrial components (EG000017) / Front element for selector switch (EC000222)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Command and alarm device / Front element for selector switches (ecl@ss13-27-37-12-13 [AKF031019])

[AKF031019])	
Number of switch positions	3
Type of control element	Toggle
Suitable for illumination	Yes
Colour control element	Black
Colour indicator light cap	Red
Construction type lens	Round

Hole diameter	mm	22.5
Width opening	mm	0
Height opening	mm	0
Switching function latching		Yes
Spring-return		No
With front ring		Yes
Material front ring		Plastic
Colour front ring		Titanium
Degree of protection (IP), front side		IP66
Degree of protection (NEMA)		4X, 13
