DATASHEET - DILM12-XS1

Star-point bridge, For use with DILM7 - DILM15

	Star-point bridge, for use with DILMIT - DILMITS				
	Part no. EL Number	DILM12-XS1 281190 4131881	l		Powering Business Worldwide
	(Norway)				
General specifications					
Product name				Eaton Moeller® series DILM star-poin	nt bridge
Part no.				DILM12-XS1	
EAN				4015082811907	
Product Length/Depth				30 millimetre	
Product height				4 millimetre	
Product width				27 millimetre	
Product weight				0.003 kilogram	
Certifications				CSA File No.: 012528 CSA UL CE UL 508 CSA-C22.2 No. 14-05 CSA Class No.: 3211-05 UL Category Control No.: NLRV IEC/EN 60947-4-1 UL File No.: E36332	
Product Tradename				DILM	
Product Type				Accessory	
Product Sub Type				Star-point bridge	
Catalog Notes				Use as auxiliary contact DILA-XHIT	
General information					
Accessory/spare part type				Connecting bridge	
Product category				Accessories	
Climatic environmental c	onditions				
				25.00	
Ambient operating temperatu				-25 °C	
Ambient operating temperatu	ire - max			60 °C	
Design verification					
Equipment heat dissipation, o	current-dependent Pvid			0 W	
Heat dissipation capacity Pdi	ss			0 W	
Heat dissipation per pole, cu	rrent-dependent Pvid			0 W	
Rated operational current for	specified heat dissipation (In	1)		22 A	
Static heat dissipation, non-c	urrent-dependent Pvs			0 W	
10.2.2 Corrosion resistance				Meets the product standard's require	ments.
10.2.3.1 Verification of therma	al stability of enclosures			Meets the product standard's require	ments.
10.2.3.2 Verification of resista	nce of insulating materials to	normal heat		Meets the product standard's require	ments.
10.2.3.3 Resist. of insul. mat. t	o abnormal heat/fire by intern	nal elect. effects		Meets the product standard's require	ments.
10.2.4 Resistance to ultra-vio	let (UV) radiation			Meets the product standard's require	ments.
10.2.5 Lifting				Does not apply, since the entire switc	hgear needs to be evaluated.
10.2.6 Mechanical impact				Does not apply, since the entire switc	hgear needs to be evaluated.
10.2.7 Inscriptions				Meets the product standard's require	ments.
10.3 Degree of protection of a	assemblies			Does not apply, since the entire switc	hgear needs to be evaluated.
10.4 Clearances and creepag	e distances			Meets the product standard's require	ments.
10.5 Protection against electr	ric shock			Does not apply, since the entire switc	hgear needs to be evaluated.
10.6 Incorporation of switching	ng devices and components			Does not apply, since the entire switc	hgear needs to be evaluated.
10.7 Internal electrical circuit	ts and connections			Is the panel builder's responsibility.	
10.8 Connections for external	conductors			Is the panel builder's responsibility.	
10.9.2 Power-frequency elect	tric strength			Is the panel builder's responsibility.	
10.9.3 Impulse withstand volt	age			Is the panel builder's responsibility.	

10.9.4 Testing of enclosures made of insulating material

Is the panel builder's responsibility.

10.10 Temperature rise	The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.12 Electromagnetic compatibility	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.13 Mechanical function	The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

Technical data ETIM 9.0

Low-voltage industrial components (EG000017) / Accessories/spare parts for low-voltage switch technology (EC002498)				
Electric engineering, automation, process control engineering / Low-voltage switch technology / Component for low-voltage switching				
Type of accessory/spare part	Connecting bridge			
Accessory	Yes			
Spare part	No
