## DATASHEET - NZMS2-4-AX25

Part no. Catalog No.

NZM2 PXR10 circuit breaker, 25A, 4p, Screw terminal

NZMS2-4-AX25 193370

## **Technical data**

| General   |      |  |
|---|------|--|
| Standards   |      | IEC/EN 60947   |
| Protection against direct contact   |      | Finger and back of hand proof to VDE 0106 Part 100                             |
| Climatic proofing   |      | Damp heat, constant, to IEC 60068-2-78<br>Damp heat, cyclic, to IEC 60068-2-30 |
| Ambient temperature   |      |  |
| Ambient temperature, storage  | °C   | - 40 - + 70  |
| Operation   | °C   | -25 - +70  |
| Mechanical shock resistance (10 ms half-sinusoidal shock) according to IEC 60068-2-27 | g    | 20 (half-sinusoidal shock 20 ms)   |
| Safe isolation to EN 61140  |      |  |
| Between auxiliary contacts and main contacts  | V AC | 500  |
| between the auxiliary contacts  | V AC | 300  |
| Mounting position   |      | Vertical and 90° in all directions   |

|   |                  |                 | With XFI earth-fault release:<br>- NZM1, N1, NZM2, N2: vertical and<br>90° in all directions<br>with plug-in unit<br>- NZM1, N1, NZM2, N2: vertical, 90°<br>right/left<br>with with withdrawable unit:<br>- NZM3, N3: vertical, 90° right/left<br>- NZM4, N4: vertical<br>with remote operator:<br>- NZM2, N(S)2, NZM3, N(S)3,<br>NZM4, N(S)4: vertical and 90° in all<br>directions |     |
|---|------------------|-----------------|--|-----|
| Direction of incoming supply  |                  |                 | as required  |     |
| Degree of protection  |                  |                 |  |     |
| Device  |                  |                 | In the operating controls area: IP20 (basic degree of protection)  |     |
| Enclosures  |                  |                 | With insulating surround: IP40<br>With door coupling rotary handle: IP66   |     |
| Terminations  |                  |                 | Tunnel terminal: IP10<br>Phase isolator and strip terminal: IP00   |     |
| Other technical data (sheet catalogue)                                      |                  |                 | Weight<br>Temperature dependency, Derating<br>Effective power loss   |     |
| Circuit-breakers  |                  |                 |  |     |
| Rated current = rated uninterrupted current                                 | $I_n = I_u$      | А               | 25   |     |
| Rated surge voltage invariability   | U <sub>imp</sub> |                 |  |     |
| Main contacts   |                  | V               | 8000   |     |
| Auxiliary contacts  |                  | V               | 6000   |     |
| Overvoltage category/pollution degree                                       |                  |                 | 111/3  |     |
| Rated insulation voltage  | Ui               | V               | 690  |     |
| Switching capacity  |                  |                 |  |     |
| Rated short-circuit breaking capacity I <sub>cn</sub>                       | I <sub>cn</sub>  |                 |  |     |
| Icu to IEC/EN 60947 test cycle 0-t-C0                                       | lcu              | kA              |  |     |
| 400/415 V 50/60 Hz  | I <sub>cu</sub>  | kA              | 70   |     |
|   |                  |                 | Maximum back-up fuse, if the expected short-circuit currents at the installat location exceed the switching capacity of the circuit-breaker.   | ion |
| Utilization category to IEC/EN 60947-2                                      |                  |                 | A  |     |
| Lifespan, mechanical(of which max. 50 % trip by shunt/undervoltage release) | Operations       |                 | 20000  |     |
| Lifespan, electrical<br>AC-1  |                  |                 |  |     |
| 400 V 50/60 Hz  | Operations       |                 | 10000  |     |
| 415 V 50/60 Hz  | Operations       |                 | 10000  |     |
| AC3   | operations       |                 |  |     |
| 415 V 50/60 Hz  | Operations       |                 | 6500   |     |
| Max. operating frequency  | operations       | Ops/h           | 120  |     |
| Total break time at short-circuit   |                  | ms              | < 10   |     |
| Terminal capacity   |                  |                 | N 10   |     |
| Standard equipment  |                  |                 | Screw connection   |     |
| Round copper conductor  |                  |                 |  |     |
| Tunnel terminal   |                  |                 |  |     |
| Solid   |                  | mm <sup>2</sup> | 1 x 16   |     |
| Copper busbar (width x thickness)   | mm               |                 |  |     |
| Bolt terminal and rear-side connection                                      |                  |                 |  |     |
|   |                  |                 |  |     |

# Design verification as per IEC/EN 61439

| •  |                  |    |      |
|--|------------------|----|------|
| Technical data for design verification                   |                  |    |      |
| Rated operational current for specified heat dissipation | In               | А  | 25   |
| Equipment heat dissipation, current-dependent            | P <sub>vid</sub> | W  | 0.52 |
| Operating ambient temperature min.                       |                  | °C | -25  |
| Operating ambient temperature max.                       |                  | °C | 70   |
| IEC/EN 61439 design verification                         |                  |    |      |

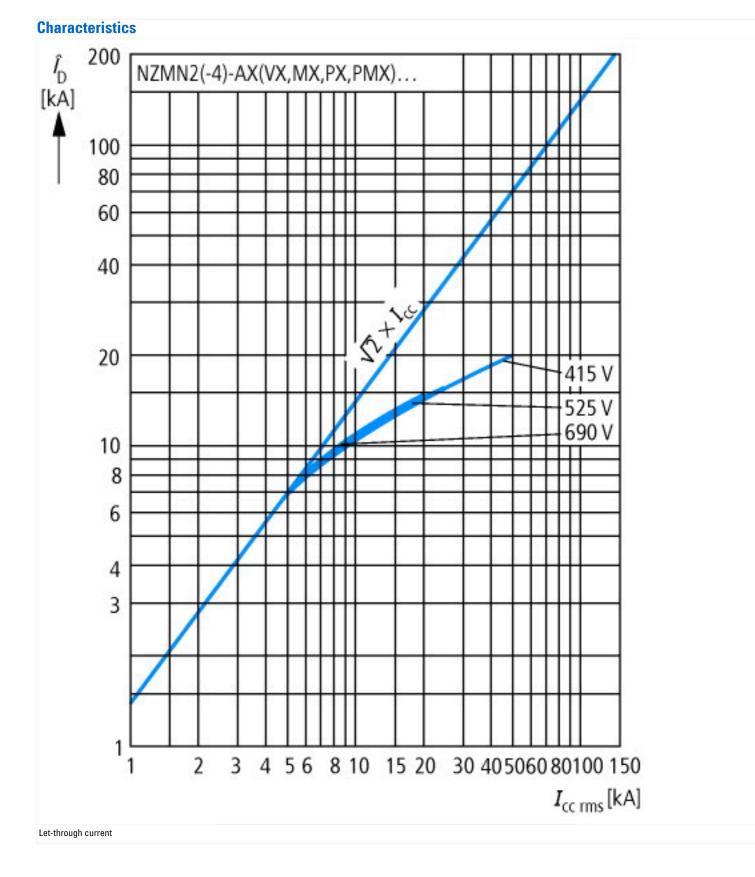

| 10.2 Strength of materials and parts   |  |
|--|--|
| 10.2.2 Corrosion resistance  | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   | Meets the product standard's requirements.   |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections  | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |  |
| 10.9.2 Power-frequency electric strength   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

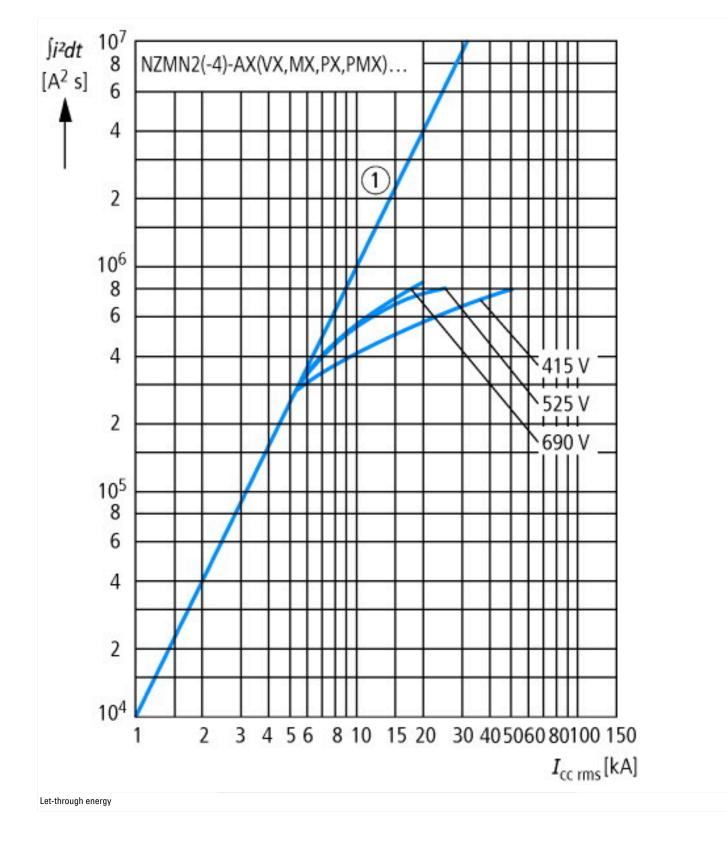

### **Technical data ETIM 6.0**

Low-voltage industrial components (EG000017) / Power circuit-breaker for trafo/generator/installation prot. (EC000228)

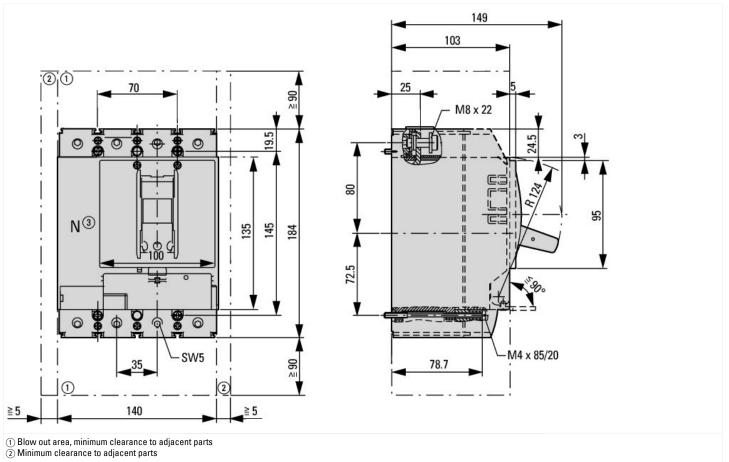

Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Circuit breaker for power transformer, generator and system protection (ecl@ss8.1-27-37-04-09 [AJZ716010])

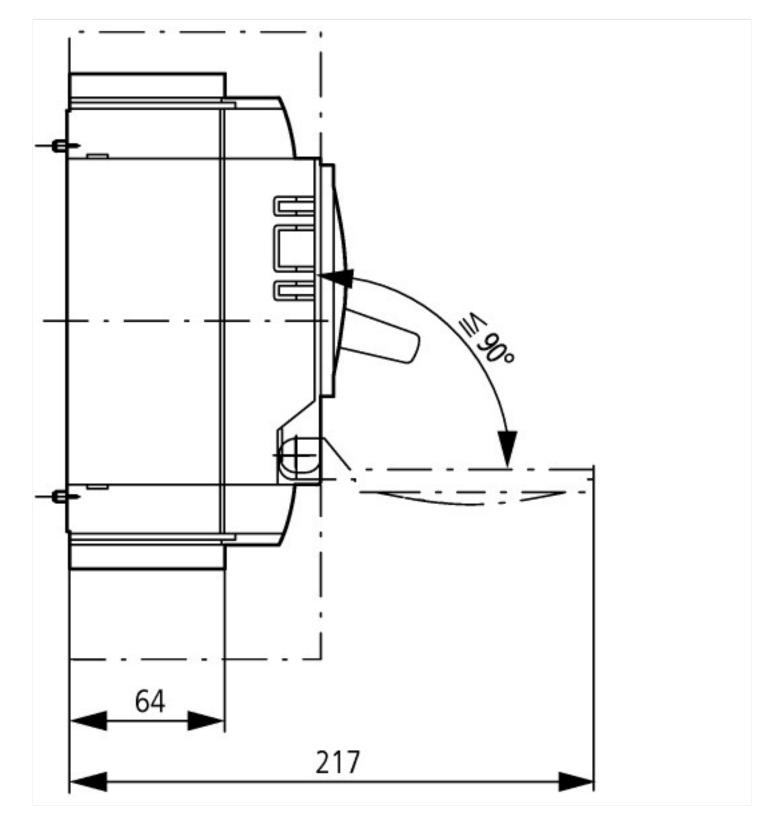

| Rated permanent current lu                                | А  | 25                                       |
|---|----|--|
| Rated voltage   | V  | 690 - 690                                |
| Rated short-circuit breaking capacity Icu at 400 V, 50 Hz | kA | 70                                       |
| Overload release current setting                          | А  | 20 - 25                                  |
| Adjustment range short-term delayed short-circuit release | А  | 0 - 0                                    |
| Adjustment range undelayed short-circuit release          | А  | 2 - 12                                   |
| Integrated earth fault protection                         |    | No                                       |
| Type of electrical connection of main circuit             |    | Screw connection                         |
| Device construction                                       |    | Built-in device fixed built-in technique |
| Suitable for DIN rail (top hat rail) mounting             |    | No                                       |
| DIN rail (top hat rail) mounting optional                 |    | Yes                                      |
| Number of auxiliary contacts as normally closed contact   |    | 0  |
| Number of auxiliary contacts as normally open contact     |    | 0  |
| Number of auxiliary contacts as change-over contact       |    | 0  |
| Switched-off indicator available                          |    | No                                       |
| With under voltage release                                |    | No                                       |
| Number of poles   |    | 4  |
| Position of connection for main current circuit           |    | Front side                               |
| Type of control element                                   |    | Rocker lever                             |
| Complete device with protection unit                      |    | Yes                                      |
| Motor drive integrated                                    |    | No                                       |
| Motor drive optional                                      |    | Yes                                      |
| Degree of protection (IP)                                 |    | IP20                                     |
|   |    |  |
