Standard auxiliary contact, NHI-E, 1 N/O, Can be fitted to the front, Screw terminals

Part no. NHI-E-10-PKZ0

082884

**EL Number** ıy)

4315150

| General specifications                                       |  |
| Product name   | Eaton Moeller® series NHI Accessory Standard auxiliary contact   |
| Part no.   | NHI-E-10-PKZ0  |
| EAN  | 4015080828846  |
| Product Length/Depth   | 12 millimetre  |
| Product height   | 35 millimetre  |
| Product width  | 45 millimetre  |
| Product weight   | 0.011 kilogram   |
| Certifications   | CSA File No.: 165628 UL Category Control No.: NLRV CSA Class No.: 3211-05 UL UL File No.: E36332 CSA-C22.2 No. 14 CSA IEC/EN 60947-4-1 CE UL 508 |
| Product Tradename  | NHI  |
| Product Type   | Accessory  |
| Product Sub Type   | Standard auxiliary contact   |
| Catalog Notes  | Can be fitted to the front. Terminal designation differs to that of an auxiliary contact that can be fitted to the side                          |
| Features & Functions   |  |
| Electric connection type                                     | Screw connection   |
| General information  |  |
| Lifespan, electrical   | 100,000 Operations   |
| Lifespan, mechanical   | 100,000 Operations   |
| Model  | Top mounting   |
| Mounting method  | Front fastening  |
| Overvoltage category   | III  |
| Pollution degree   | 3  |
| Product category   | Accessories  |
| Rated impulse withstand voltage (Uimp)                       | 4000 V AC  |
| Used with  | Motor protective circuit-breaker   |
| Climatic environmental conditions                            |  |
| Ambient operating temperature - min                          | -25 °C   |
| Ambient operating temperature - max                          | 55 °C  |
| Terminal capacities  |  |
| Terminal capacity (solid/flexible with ferrule)              | 0.75 - 1.5 mm <sup>2</sup>   |
| Terminal capacity (solid/stranded AWG)                       | 18 - 16, Screw terminals   |
| Electrical rating  |  |
| Rated operational current (Ie) at AC-15, 220 V, 230 V, 240 V | 1 A  |
| Rated operational current (Ie) at DC-13, 24 V                | 2 A  |
| Rated operational voltage (Ue) at AC - max                   | 440 V  |
| Rated operational voltage (Ue) at DC - max                   | 250 V  |
| Safe isolation   | 440 V, Between auxiliary contacts and main contacts, According to EN 61140   |
| Short-circuit protection rating without welding              | 10 A gG/gL, Fuse, Auxiliary contacts   |
| Switching capacity   |  |
| Switching capacity (auxiliary contacts, general use)         | 0.5 A, 250 V DC, (UL/CSA)  |
|  |  |

| Switching capacity (auxiliary contacts, pilot duty)                              | E150, AC operated (UL/CSA)   |
|--|--|
| Communication  |  |
| Connection type  | Screw connection   |
| Contacts   |  |
| Control circuit reliability  | $<$ 2 $\lambda, <$ 1 failure at 100,000,000 Operations (at U# = 24 V DC, Umin = 17 V, Imin = 5.4 mA)                             |
| Number of contacts (change-over contacts)  | 0  |
| Number of contacts (normally closed contacts)                                    | 0  |
| Number of contacts (normally open contacts)                                      | 1  |
| Design verification  |  |
| Equipment heat dissipation, current-dependent Pvid                               | 0 W  |
| Heat dissipation capacity Pdiss  | 0 W  |
| Heat dissipation per pole, current-dependent Pvid                                | 0.01 W   |
| Rated operational current for specified heat dissipation (In)                    | 1 A  |
| Static heat dissipation, non-current-dependent Pvs                               | 0 W  |
| 10.2.2 Corrosion resistance  | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures                         | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat       | Meets the product standard's requirements.   |
| 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation                                 | Meets the product standard's requirements.   |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of assemblies  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components                           | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections                                | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   | Is the panel builder's responsibility.   |
| 10.9.2 Power-frequency electric strength   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material                         | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## **Technical data ETIM 9.0**

Low-voltage industrial components (EG000017) / Auxiliary contact block (EC000041)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Component for low-voltage switching technology / Auxiliary switch block

| (ecl@ss13-27-37-13-02 [AKN342018])            |   |                  |  |
|---|---|------------------|--|
| Number of contacts as change-over contact     |   | 0                |  |
| Number of contacts as normally open contact   |   | 1                |  |
| Number of contacts as normally closed contact |   | 0                |  |
