## **DATASHEET - SWD4-CRP-2**

## Crimping tool for SWD blade terminal SWD4-8MF2

| Part no.  | SWD4-CRP-2 |
|-----------|------------|
|           | 116699     |
| EL Number | 4519798    |
| (Norway)  |            |

| (itorway)                                                                        |                                                                                                                                  |
|----------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| General specifications                                                           |                                                                                                                                  |
| Product name                                                                     | Eaton SWD4 Accessory Crimping tool                                                                                               |
| Part no.                                                                         | SWD4-CRP-2                                                                                                                       |
| EAN                                                                              | 4015081164448                                                                                                                    |
| Product Length/Depth                                                             | 30 millimetre                                                                                                                    |
| Product height                                                                   | 210 millimetre                                                                                                                   |
| Product width                                                                    | 100 millimetre                                                                                                                   |
| Product weight                                                                   | 0.661 kilogram                                                                                                                   |
| Certifications                                                                   | UL/CSA certification not required                                                                                                |
| Product Tradename                                                                | SWD4                                                                                                                             |
| Product Type                                                                     | Accessory                                                                                                                        |
| Product Sub Type                                                                 | Crimping tool                                                                                                                    |
| Features & Functions                                                             |                                                                                                                                  |
| Fitted with:                                                                     | Locking device                                                                                                                   |
| Functions                                                                        | To install external blade terminal SWD4-8MF2 at both ends of the SmartWire-DT ribbon cable                                       |
| General information                                                              |                                                                                                                                  |
| Product category                                                                 | SmartWire-DT accessories                                                                                                         |
| Suitable for                                                                     | Low current connector                                                                                                            |
| Communication                                                                    |                                                                                                                                  |
| Connection to SmartWire-DT                                                       | Yes                                                                                                                              |
| Design verification                                                              |                                                                                                                                  |
| Equipment heat dissipation, current-dependent Pvid                               | 0 W                                                                                                                              |
| Heat dissipation per pole, current-dependent Pvid                                | 0 W                                                                                                                              |
| Rated operational current for specified heat dissipation (In)                    | 0 A                                                                                                                              |
| 10.2.2 Corrosion resistance                                                      | Meets the product standard's requirements.                                                                                       |
| 10.2.3.1 Verification of thermal stability of enclosures                         | Meets the product standard's requirements.                                                                                       |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat       | Meets the product standard's requirements.                                                                                       |
| 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects | Meets the product standard's requirements.                                                                                       |
| 10.2.4 Resistance to ultra-violet (UV) radiation                                 | Meets the product standard's requirements.                                                                                       |
| 10.2.5 Lifting                                                                   | Does not apply, since the entire switchgear needs to be evaluated.                                                               |
| 10.2.6 Mechanical impact                                                         | Does not apply, since the entire switchgear needs to be evaluated.                                                               |
| 10.2.7 Inscriptions                                                              | Meets the product standard's requirements.                                                                                       |
| 10.3 Degree of protection of assemblies                                          | Meets the product standard's requirements.                                                                                       |
| 10.4 Clearances and creepage distances                                           | Meets the product standard's requirements.                                                                                       |
| 10.5 Protection against electric shock                                           | Does not apply, since the entire switchgear needs to be evaluated.                                                               |
| 10.6 Incorporation of switching devices and components                           | Does not apply, since the entire switchgear needs to be evaluated.                                                               |
| 10.7 Internal electrical circuits and connections                                | Is the panel builder's responsibility.                                                                                           |
| 10.8 Connections for external conductors                                         | Is the panel builder's responsibility.                                                                                           |
| 10.9.2 Power-frequency electric strength                                         | Is the panel builder's responsibility.                                                                                           |
| 10.9.3 Impulse withstand voltage                                                 | Is the panel builder's responsibility.                                                                                           |
| 10.9.4 Testing of enclosures made of insulating material                         | Is the panel builder's responsibility.                                                                                           |
| 10.10 Temperature rise                                                           | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating                                                       | Is the panel builder's responsibility.                                                                                           |
| 10.12 Electromagnetic compatibility                                              | Is the panel builder's responsibility.                                                                                           |

10.13 Mechanical function

leaflet (IL) is observed.

The device meets the requirements, provided the information in the instruction
