DATASHEET - HR516

Actuating roller lever, AT4, 30 mm, With roller from insulated material, I 50 mm, For use with R-AT4

Part no. HR516 Catalog No. 043360

Delivery program

Don'to') program				
Basic function			Components	
Part group reference			AT4	
Product range			Actuators	
Function			actuating roller lever	
Diameter	Ø	mm	30	
Description			For adding R-AT4 rotary drive With roller from insulated material Please enquire about our non-standard rollers	
Lever length	I	mm	50	
For use with			R-AT4	

Design verification as per IEC/EN 61439

Technical data for design verification		
Operating ambient temperature min.	°C	-25
Operating ambient temperature max.	°C	70

Technical data ETIM 7.0

Sensors (EG000026) / Drive head for position switches/hinge switches (EC001483)

Electric engineering, automation, process control engineering / Binary sensor technology, safety-related sensor technology / Position switch / Drive head for position switches (ecl@ss10.0.1-27-27-06-04 [BAA083012])

Type of control element Rotary lever
