| Basic function | Locking arrangements |
|-----------------------|------------------------------|
| Function | Key operation lock mechanism |
| | KABA lock 90 Grad |
| For use with | Centre mounting (EZ) |
| Key withdrawable with | 270°——90° |

Notes The KABA lock for 90° can be used for other switching angles as well (for example) if the key withdrawability characteristics match the switch. Example: EZ/S-B can be used with a step switch with a switching angle of 30° if the key should only be withdrawable in the 0 position at 270°.
