

**Actuating roller lever, AT4, 50 mm, 2 rollers next to each other, l 50 mm,
For use with R-AT4**

Part no. HR5382
Catalog No. 057598
Alternate Catalog No. -

Delivery program

Basic function			Components
Part group reference			AT4
Product range			Actuators
Function			actuating roller lever
Diameter	∅	mm	50
Description			For adding R-AT4 rotary drive 2 rollers next to each other
Lever length	l	mm	50
For use with			R-AT4

Design verification as per IEC/EN 61439

Technical data for design verification			
Operating ambient temperature min.		°C	-25
Operating ambient temperature max.		°C	70

Technical data ETIM 6.0

Sensors (EG000026) / Drive head for position switches/hinge switches (EC001483)			
Electric engineering, automation, process control engineering / Binary sensor technology, safety-related sensor technology / Position switch / Drive head for position switches (ecl@ss8.1-27-27-06-04 [BAA083009])			
Type of control element			Rotary lever
