

# M4M Network analyzers

Accurate electrical measuring and power monitoring.

Simple in every aspect, M4M enables accurate energy efficiency evaluations and perfectly fits the ABB solution for monitoring, optimization and control of electrical system.

**Accurate measurement**  
Class 0.5 measurement according to IEC 61557-12 and advanced power quality functionalities, including historical measurements.

**Clear visualization**  
Color display and App-structured menu for advanced graphic visualization.

**Smart commissioning**  
Bluetooth module for easy configuration through EPIC Mobile App unique commissioning tool.

**Intuitive access**  
Simplified access to the device via touch screen display or 5 pushbuttons keypad.

**Full communication**  
ABB Ability™ native network analyzers with complete communication protocols and I/O options for integration in any system.

**Easy to install**  
Fast one-hand mounting and comfortable installation with clips in only 57 mm depth inside the panel.

**Fast wiring**  
All-removable terminals and one tool process to speed up the wiring activities.

### Intuitive interface

Touchscreen display and easy-to-access App-structured menu make network analyzers' configuration and operation simple and quick. Graphic color display for advanced visualization of the Class 0,5S accurate parameters, interactive pop-ups and complete notifications. Quick navigation is ensured by Homepage and favorite page setting.

### Full integration

ABB Ability™-native network analyzers, automatically integrated in ABB Ability™ Energy Manager cloud solution, allowing to monitor, optimize and control the complete electrical system. Wide integration in all main applications through embedded communication protocols (Modbus RTU, Modbus TCP/IP, BACnet/IP, Profibus DP V0).

### Smart commissioning

All M4M network analyzers are equipped with Bluetooth BLE module, ensuring smart configuration and quick visualization via unique EPiC commissioning tool, both available as mobile App and desktop software. Availability of remote firmware update regularly at any time guarantees the latest and the most secure version of the device with no impact on operations.

### Installation in any panel

Comfortable installation and secure fix on the panel is ensured by the easy-to-use clips, with different thickness setup for compatibility with any panel. One-hand mounting of the device thanks to the hooks on the housing. The reduced depth of only 57 mm inside the panel makes M4M suitable even in small-size switchboards.

### Fast installation and wiring

All terminals on M4M are removable, including the current transformers (CTs) inputs for current measurement, allowing to carry out the wiring directly on the terminals and speeding up the process. Moreover, the vertical disposition of the terminals makes the cabling inside the switchboard more comfortable.

### Rogowski coils compatibility

Specific M4M versions compatible with ABB's R4M Rogowski coils allow to retrofit in existing installations, integrating power quality metering with 0 downtime. The pre-wired terminals of R4M coils allow to save up to 70% time for current transformers cabling compared to standard CTs.

# Technical features

<b>Auxiliary power supply</b>			
Voltage range	[V]	48 - 240 V AC/VDC ±15 %	
Frequency	[Hz]	50 - 60	
Power consumption	[VA]	10 VA max	
Installation category		CAT III 300V class per IEC 61010-1 edition 3	
Protection fuse		T1 A - 277 VAC	
<b>Measurement accuracy*</b>			
Measurement type		True RMS up to the 40 <sup>th</sup> harmonic 128 samples per cycle, zero blind	
IEC 61557-12		IEC 61557-12 PMD/S/K70/0,5 Class 0,5 acc. to IEC 61557-12 [*] Class 0,5S acc. to IEC 62053-22	
Active energy		Class 2 acc. to IEC 61557-12 Class 2S acc. to IEC 62053-23	
Reactive energy		Class 0,5 acc. to IEC 61557-12

## M4M 20

M4M 20 is ABB's network analyzer range that provides complete and accurate electrical parameters monitoring and basic power quality analysis.

Equipped with graphic color display for advanced visualization of the measured parameters and Bluetooth module for smart commissioning.

Communication protocol	I/O	Bbn 8012542	Order details		Weight 1 piece kg	Pack unit pc.
		EAN	Type code	Order code

## M4M 20 - ROGOWSKI VERSION

M4M 20 is also available as compatible with ABB's R4M Rogowski coils for current measurement, increasing the flexibility of network analyzers offer and allowing retrofit in any existing installations.

M4M 20 Rogowski together with R4M Rogowski coils ensures the integration of basic power quality metering in any existing system with 0 downtime.

## R4M ROGOWSKI COILS

R4M Rogowski coils are flexible current transformer based on Rogowski technology, ideal to retrofit existing installations up to 12kA. Available in two different sizes (80mm or 200mm diameters), R4M coils are directly equipped with pre-wired removable terminals that perfectly fit M4M 20 Rogowski (3 Rogowski coil inputs) and M4M 30 Rogowski (4 Rogowski coil inputs), with no need for external integrators.

Diameter (mm)	Bbn	Order details		Weight 1 piece kg	Pack unit pc.
	8012542 EAN	Type code	Order code
